NO. OF ENCLS. (LISTED BELOW)

SUPPLEMENT TO REPORT NO.

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT SO U.S.C., 31 AND 32, AS AMENDED, ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PRO-HIBITED BY LAW, REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

- 1. Herr Lummerzhein (fnu), of the Agfa Film in Wolfen, reports a lack of sensitizers. In a recent report he stated that many dyes can no longer be produced in Wolfen because the necessary material, which apparently is made on an anthracite base, is lacking.
- 2. Prof. Albert Narath of the Technische Hochschule, British Sector Berlin, formerly of the Kinematographisches Institut in Babelsberg (Russian Sector) has statted to put his students to work on making sensitizers in rather considerable amounts, ostensibly as a research project.
- 3. Dr. Mutter (fnu), formerly of the Kinematographisches Institut, Babelsberg fled from there in early February 1949 and has now found a position in Hamburg with a firm which provides the necessary material for producing sensitizers and dyes. He obtained this position through the aid of Professor Narath.
- 4. The institute at Babelsberg is again working on the problem of high pitched noises and similar disturbances. It is understood that experiments are being made using drugs and post-hypnosis.
